The patented new iCLEAN combines smartphone technology with stabilized aqueous ozone to create the first pay-as-you-go, 100% sustainable cleaning program.

- Track your cleaning solution usage and pay only for what you use – *after you use it.*
- Eliminate storing and disposing of costly, harmful chemicals and container waste.
- Report cleaning data to superiors and leaders in real-time.

Install the iCLEAN app onto your computer or smartphone, sync it to the iCLEAN dispenser, and start tracking your cleaning and sanitizing program immediately!
The **Tersano iCLEAN** replaces traditional harmful cleaning and sanitizing chemicals with NSF-approved Stabilized Aqueous Ozone (SAO) – a safe, effective, and proven cleaner and sanitizer.

**SAO** has been researched, tested, and approved for cleaning and sanitizing by numerous governmental agencies around the world: [www.tersano.com/approvals](http://www.tersano.com/approvals)

---

**ADVANCED A6 CHIP** inside the iCLEAN dispenser syncs to the iCLEAN app on your computer to capture, store, and report real-time data including:

- How much cleaning and sanitizing solution you use hourly, daily, or monthly
- Time of day staff is dispensing, at what rate, and how often
- When to replace your cartridge

---

**A SIMPLER WAY TO CLEAN.**

No more chemical pouring by your staff. No time-consuming, complicated measuring, mixing or batching. Just the cleaning solution you need and the data you want.

Available **SPRING 2017**

---

**STABILIZED AQUEOUS OZONE**: A Safer Way To Clean

The **Tersano iCLEAN** replaces traditional harmful cleaning and sanitizing chemicals with NSF-approved Stabilized Aqueous Ozone (SAO) – a safe, effective, and proven cleaner and sanitizer.

SAO has been researched, tested, and approved for cleaning and sanitizing by numerous governmental agencies around the world: [www.tersano.com/approvals](http://www.tersano.com/approvals)
