6 lotus@home Sanitizing System, \$200

canadiantire.ca

Pesticides, fungicides, bacteria, viruses -- who knows what our foods are carrying by the time we bring them home. The lotus Sanitizing system infuses water with ozone in the all-purpose sanitizing bowl to neutralize up to 99.9% of bacteria and pesticides on foods. You can also use lotus to infuse water in the included spray bottle attachment and sanitize surfaces.
